DETAILED ACTION

Response to Amendment

1. This Office Action is in response to applicant's Notice of Appeal dated May 4, 2005 in response to PTO Office Action dated February 11, 2005. The amendments to claim(s) 1, 7-13, 20-23 and 25 to correct various informalities and to remove reference to "step for" language which were submitted after the final office action dated October 4, 2004 have been noted and entered in the record, and applicant's remarks have been carefully considered resulting in the action as set forth herein below.
2. Claims 1-30 are allowed.
3. The following is an examiner's statement of reasons for allowance: Upon further consideration, the prior art, in particular DiNicola reference (U.S. Patent No. 5,394,524) fails to disclose dual mode sub-processing circuitry associated with each of said two-dimensional image pipeline and said three-dimensional image pipelines, that is operable in a selected one of a two-dimensional mode and a three-dimensional mode wherein in these two modes the dual mode sub-processing circuitry is at an intermediate stage. DiNicola reference discloses 2D and 3D processing node utilizing an attribute processor (AP) 306. The attribute processor performs preprocessing of the incoming 2D and 3D streams and is not at an intermediate stage as per the independent claims 1, 7, 14, 20, 26 and 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
